

Science Week 2023

The children have had so much fun investigating and enquiring during British Science week. The theme was connections. We welcomed Dr Young from Worksop College into school to perform a science workshop with Year 5 & 6. They learnt about exciting chemical reactions with the odd explosion. Reception to Year 4 spent time also finding out about reactions and what connects to cause the reaction. Lots of curious scientists in school this week. Thank you, Miss Harbottle for coordinating such excitement for everyone.

The Great Reception Bake Off

Reception class investigated the relationship between yeast and warm water as they discovered how to make bread. Lots of fun was had especially in the product testing!

Sports Fixtures

The u9's had a fabulous afternoon of football at the Barlborough Hall festival on Tuesday. In cold and tough conditions they continued to show their silky skills and excellent team work! Well done Team SPSP!

Red Nose Day

Well done to our children in raising a super £133.00 for Red Nose Day 2023. Thank you everyone for your kind donations.

Friends of SPSP – Easter in Wonderland

We are very excited for the Easter Wonderland Fair next week. The Friends of SPSP have been working tirelessly behind the scenes to make an enjoyable afternoon for everyone. Please do send any donations for our Tombola to Mrs Stevenson in main school reception. If you have not yet completed the consent for your child, then please follow this link: <https://forms.gle/qxzF8Q9ebWp28kJY9>

Happy Mothering Sunday

Wishing all of our wonderful Mothers and Grandmothers a very relaxing day on Sunday. Thank you for all the wonderful things you do for your children every day.
